

# MEI® series 2000 combo acceptor

No matter how they pay,  
**consumers**  
will be satisfied.

- Credit cards
- Debit cards
- MEI coupons
- Bills

## CASH AND CREDIT: GIVE CONSUMERS A CHOICE AND INCREASE YOUR SALES

With the MEI series 2000 Combo Acceptor, your vending machine can handle whatever form of payment your customers prefer: credit card, debit card, cash or MEI coupons. This kind of convenience means customers are more likely

to buy from you and less likely to walk away empty-handed – increasing your sales and helping you win and retain high-traffic locations.

Credit card and debit card consumers will appreciate the convenience of paying with credit and the fast, secure transactions that can be canceled with just the touch of a button.

And since the combo acceptor features the MEI series 2000 – the industry's best bill acceptor – consumers who use cash will experience reliability, a high bill acceptance rate, and convenience.

And if operators choose to offer them, consumers can even pay with MEI coupons.

Vending operators get a robust, reliable system that combines the industry's best-selling bill acceptor with a debris-resistant, swipe-style card reader. The unit fits into existing mountings where MEI VN2512 full face bill acceptors are used and is ideal for virtually any indoor or outdoor location.

**So give your customers a choice – and give your business an advantage – with the series 2000 combo acceptor from MEI.**

## CONSUMER- AND OPERATOR-FRIENDLY FEATURES MAKE THE MEI COMBO ACCEPTOR IDEAL ANYTIME, ANYWHERE

### Convenient payment

- Gives consumers more choices for making purchases by accepting credit cards, debit cards, cash and MEI coupons
- Features the MEI series 2000; with over 2 million sold, it's the industry's best bill acceptor
- Allows consumers to easily cancel a transaction with the touch of one button

### Increase sales and site retention

- More payment options means fewer consumers walk away due to a lack of cash
- Convenience of payment results in greater volume of sales and increased site retention

### Installs easily

- Fits existing mountings where MEI VN2512 full face bill acceptors are used
- No additional openings to cut
- No need to choose between a bill acceptor and card reader

### Compatible with other systems

- Existing payment systems
- Vending management software systems
- MDB/DEX
- Interfaces with MEI EASITRAX® remote data port or equivalent

### High-contrast display

- Easily visible in bright light to darkness for flexible placement
- Explains all activity with easy-to-read two-line display
- Operates over full vending temperature range

### Armored bezel

- Chrome-steel design prevents break-ins
- Protects against damage from corrosive elements, e.g. salt
- Water/salting resistant
- Ideal for outdoor placement including rainy, dusty or dirty locations

### Resists coins and debris

- Swipe-style credit card reader and bill path resist inadvertent coin insertion
- Self-clearing swipe design resists debris

### Why choose MEI?

MEI is one of the world's leading manufacturers of electronic bill acceptors, coin mechanisms and other electronic payment systems. Our customers rely on MEI electronic payment systems for more than 2 billion transactions per week in 90 countries.

With over 35 years' experience in the vending industry, we continue to focus on building innovations that benefit vending operators and bottlers. MEI payment systems' technology is considered the most reliable choice in hundreds of real-world applications and has earned the best performance rating in the market.

*The vending industry has seen a significant growth in cashless transactions over the past several years. Credit and debit card payment systems are rapidly becoming an important consumer payment option.
